Really? I thought it was listed. I sit corrected!

Thanks,
Dawn

Yes, Melinda Garvey is the RPM, but this isn't an NPL site, it's state lead, so we're one more level removed from this site. But I spoke with Mary and let her know that we are not the lead on either of these sites, and the reporter realizes this too, so they want us to be just part of the story. He will want to interview the Navy project managers and the State for their perspectives as well. This is probably a good opportunity to discuss our partnering with other agencies and various programs engaged in cleanups in the Region.

I haven't heard of the "dry cleaner" itself, but TI is a Superfund site, so the RPM is probably working on it. Should I call them?

Thanks,  
Dawn

Hi everyone,

Just wanted to send a heads up that Ken Miguel of KGO is interested in doing two upcoming (separate) feature stories on EPA's role at Treasure Island and Hunter's Point.

Here's what they're interested in:

- 1 – Treasure Island cleanup, and more specifically, the Dry Cleaner site clean-up.  
- how bad is it, what's the danger of PERC, how long to clean up, what's it going to cost, etc.
- 2 – Hunters Point clean up progress.  
-where are we at, what's next, how bad is it? Etc.

He'd like to do the interviews on-site at each location in the next month or so. So, it would be good to identify potential dates and spokespersons as soon as possible. He'll also be talking to other relevant stakeholders/agencies and will welcome our direction/input in that regard.

As an FYI -- this is the same producer/reporter/photog who we recently worked with and did a great story on EPA's role at IMM. Here's the story: [http://abclocal.go.com/kgo/story?section=news/assignment\\_7&id=7628198](http://abclocal.go.com/kgo/story?section=news/assignment_7&id=7628198).

These will likely be favorable stories for the Agency and we have a solid opportunity to shape the messaging. Please feel free to share this email with anyone I may have missed that should also be involved in prepping relevant technical content/coordinating logistics/etc.

Thanks!

Mary
